

Biometric Screening Kit

Complete your biometric screening from the comfort of home

There are 6 simple steps to an at home biometric screening.

1. Prick your finger and drop your blood sample onto the device.
2. Write your self reported measurements onto the consent form.
3. Mail the sample to the laboratory for analysis.
4. The lab will analyze your blood sample.
5. Your results will be in the lab's secure portal once analyzed.
6. Earn Go365 Points!

What is analyzed?

- Total Cholesterol
- HDL
- LDL
- Cholesterol Ratio
- Triglycerides
- Glucose
- BMI
- VLDL

If you're enrolled in a PEHT medical plan you have Go365 and are eligible for a biometric screening at no cost to you, plus you earn Go365 points for completing your screening.

When you order the kit, you will pay upfront, but will be reimbursed by the Public Education Health Trust once your results are received and processed by Health and Wellness Professionals and their partnered lab, CoreMedica.

Order your kit now by clicking this link:

Email us at info@solutionsforyourwellness.com with any questions.

PLEASE NOTE:

If you are unable to provide self-reported measurements, you will not receive the Go365 Points for completing a full biometric screening and may not receive these Go365 Points if your results were out of range last year.
